Who's Who in Center Line and Warren Michigan Area

Names starting in A

estimated 720 names this June 2026 revision

Recognizing those who helped with the betterment of our community.

Listed with their accomplishments if known.

To update your listing send email to professorwesarnold@gmail.com

The above should be expected of every adult and taught to every child and made the human law for all.
If harmers were punished we could have a wonderful world.

Freedom of speech and media safeguards freedom.
Our Constitution and Universal Declaration of Human Rights gives us many Freedoms.
Where they censor speech, information and books they will take away your freedom.

FREEDOM ISN'T FREE, MANY DIED FOR YOURS. We veterans remind you to: Be vigilant and be prepared to fight threats to your freedom. There are many here who are secretly against our way of life. Remember 9-11, Boston massacre, Detroit bomber, Mslm terrorists who nearly cause hundreds of deaths of children and Warren workers in 2026. And over 49,000 Mslm terror attacks since 9-11 worldwide and killing nearly 200 in USA.

And there are the greedy 1% who have excessive wealth dodge taxes, and Corporations who don't pay a living wage. We now have the resources to provide good clothing, food, housing, medical care and education to all citizens..

Even before the first entry we acknowledge that there are many Heroes and Volunteers who declined to have their names put in this history because they choose to do good work anonymously. I will call these our Anonymous Heroes. Several of these have put in hundreds of hours improving St Clement Cemetery or doing good work in our community. We give them our heartfelt thanks and gratitude for their wonderful works.

The first entry, "Abel Warren" is first here to honor this person.

Abel Warren War hero settled in Macomb County in the summer of 1824. Abel and Sarah Warren were Pioneers in the wilderness. (Thanks to Brandon and Challis Warren) Abel Warren was a pioneer Christian circuit preacher and war hero who became particularly beloved to the early pioneers and was held in very high esteem so much so that the area near the future village of Warren was called Abe's circuit or Warren's circuit. The area was later named Aba Township and on March 26, 1839 it was renamed Warren Township. (Aba was probably his nickname) "I have fought a good fight. I have finished my course. I have kept the faith." Thus reads the stone of the pioneer Christian preacher and war hero who married more of Warren's pioneers and spoke at more of their burials than any other person. He

was Rev Abel Warren born August 3, 1789 and died Sept 5, 1862. His great grandfather came across on the Mayflower. His Grandfather Gideon Warren was a Lieutenant in the French and Indian Wars, joining in 1748. "He was one of Ethan Allen's Green Mountain Boys" in Vermont. He became a Colonel of the 5th Vermont Regiment in the Revolutionary War. He was wounded in the battle of Ticonderoga. Abel Warren enlisted and served his country as a soldier in 1812 holding the rank of Sergeant. He was seriously wounded and taken prisoner at the battle of Queens town Heights. Having near death experiences in the war and as a British prisoner made him aware of the value of life. He became a Christian in 1817 and joined the Methodist church. In 1824 he and his wife Sarah became some of the first pioneers in Macomb County settling just north of Warren. He became a deacon and later an elder in the church and was the

first man to preach in Macomb County, and "no doubt preached at more funerals and married more couples than any other man in the county of Macomb, as when well he was always ready at a moment's call for either, frequently leaving the hayfield and going ten or fifteen miles to attend a funeral", on foot as horses in those days were very scarce.

"As a pioneer local preacher, he was abundant in labors, traveling on foot at times twenty-four miles on the Sabbath and preaching three times, and that after a hard week's work on the farm, and preaching as regularly as any stationed, preacher, and spending most of the winters in special revival work, in Macomb, St Clair and Oakland Counties, in which hundreds were converted, thus helping to lay the basis on which rests the magnificent, moral and social superstructure of this beautiful region of country." "He was genial and sympathetic, could weep with

those that wept, or rejoice and smile with the cheerful and happy, and thus was a welcome guest, either at the wedding festival, and the sick-bed or funeral obsequies. He had nine children, four sons and five daughters." Two of his sons entered the ministry a third has an important position in the church. Abel Warren had settled in Macomb County even before Warren Township was settled. The area was all wilderness and abounded in wildlife. While pausing in the woods for a moment of prayer and some local wolves started howling so he held prayer meeting with them. "One Sabbath evening, while passing through the woods over an Indian trail, he saw just ahead of him a huge bear. The animal seemed inclined to dispute the right of way; without apparent fear, the traveler picked up a stick, saying, 'If you be good, I will, but otherwise we will try titles.' The bear stepped aside and the Elder pushed forward on

his journey." From the History of Macomb County. Leeson 1882 p 739. "The first or second sermon ever delivered in Lapeer County was preached by 'old Father Abel Warren,' as he was familiarly called. Mr. Warren belonged to the M. E. Church and was the pioneer preacher of a large track of wilderness, embracing this and several adjoining counties. He must have been a man of many sterling qualities of brain and heart, judging from the success of his heroic labors and the affectionate remembrance in which he is still held by the surviving pioneers." History of Lapeer County p 33. "Rev Abel Warren, of precious memory, was the first minister to find his way to this town, and probably preached the first sermon in town. For several years did this noble veteran of the cross visit the people of the town from his home some twenty miles away in the town of Washington. It is safe to say that no

minister since that time has had the love and esteem of this people more than did this faithful and devoted man. In the year 1855 he was preacher in charge on the circuit, which was nearly the last of his ministerial labors. He has long since passed to his reward, and his memory is precious with those who knew him." History of Lapeer County p 101 Historian George Fuller in his book Historic Michigan states that Rev Abel Warren settled in Shelby in the summer of 1824 and lived there for thirty nine years. "Being a local preacher, he made his own appointments, and was at liberty to respond to any call he might receive, where the people desired his services, and such was the demand for them that there was hardly a settlement in eastern Michigan where he was not called at times to preach, either on the Sabbath, or at the funeral of some departed friend. I doubt

that if there has ever been another minister in Michigan so universally respected and beloved by all classes, and people of all creeds, as was Abel Warren, during the thirty-nine years of his life work in Michigan." He was the first man licensed to preach in the State of Michigan. History of Macomb County Leeson 1882. Rev Abel Warren was a circuit rider who traveled around Macomb County preaching the story of Jesus, marrying many pioneers, speaking at many pioneer funerals and helping to start several churches. He became known as Elder Warren. His warm personality made him many friends. He ministered to the spiritual needs of Warren's early settlers. (from Leeson's History of Macomb County-1882) It is believed he was instrumental in the formation of the first Methodist church of Warren in which his son was one of the earliest pastors. This was the first church of any denomination formed in Warren. It

is highly possible that Warren was named after this well traveled and well loved man. Abel Warren was well loved and spoken very well of in several historical references. He preached about Jesus in many places around Macomb County and Warren. Barns sometimes had to be used as there were no other buildings big enough where people could meet. He may have performed more marriages than any other local pioneer preacher. His certificates read "By me (signed) Abel Warren Minister of the Gospel". Historian Wesley Arnold located some of his descendants and they feel that since he was so well respected in the area and that family legends are such that it is very likely that the citizens wanted to honor him by naming the township after him. First by calling it Aba's (Many of the pioneers spoke different languages and Aba was a mis pronouncement of Abel's circuit) then later by calling

it Warren's circuit which got shortened to Warren. They were the pioneers. Most important these were decent, hard working people who first had to face life in the wilderness without any modern things we call necessities. They had to first build a protective shelter to protect themselves from the animals that could kill them. This had to be done before nightfall. They had to obtain water and food from the wilderness as there were no stores or restaurants just miles of woods and swamps with no roads or civilization. They had to be on constant guard against attack not only from animals but also from murderous humans. Then they had to clear land, plant crops, create tools, build better shelters for themselves and their animals. There was no electricity, no machines, no tractors, no trucks or cars, no plastic or paper products. All cooking had to be done outside

rain or shine until a chimney and log cabin could be constructed. A roof had to be constructed that could keep out the rain, cold and protect them from the hoards of mosquitoes. A bed had to be built from native materials and raised off of the floor. Indeed there were hundreds of things that had to be done to create a working farm. It took several years of real struggle. And they succeeded. **They worked to create a better life for their children and grandchildren.** They created schools and churches. They taught good values to their children. Everyone had to pull their own weight. There was no welfare or food stamps. You worked or starved. Sometimes you worked and still did without. They were law abiding, conscientious decent people that treated others as they would want to be teamed themselves. And they brought no harm to another by

their actions or inaction. They should be respected and honored.

There are two prevalent patterns for naming towns. The least prevalent was to pick them out of a list of revolutionary War Heroes. In our case General Joseph Warren who never set foot in our town and died 60 years prior. The other much more prevalent and popular pattern for naming towns was to name them after a local hero, famous resident or local popular or powerful person. Just looking at Macomb County Bruce Township was named after Robert Bruce a local resident. Orange Township after the large number of Irishmen who settled there. Sterling Township was named after a local resident as were many other townships. Mt Clemens was named after Christian Clemens, Gratiot Avenue after the man who built the road. Countless

street names were named after local residents. (far more than after presidents). The same is true for local schools, libraries and parks. What we are saying here is that far more things were named after local residents and heroes than after national ones. Since Warren was first named Aba the local nickname for Abel Warren and in a short time more formalized to Warren. We think along with historian Harold Stilwell that the founding committee chose Abel Warren the most famous and popular man at that time as the best person to honor by naming their township after him. They all did not read and they probably did not own a book on American war heroes.

Several historians feel that Warren was named after this well traveled popular and well loved man. Abel Warren was well loved and spoken very well of in several historical references. He preached about Jesus in many places around Macomb

County and Warren. Barns sometimes had to be used as there were no other buildings big enough where people could meet. He may have performed more marriages than any other local pioneer preacher. His certificates read "By me (signed) Abel Warren Minister of the Gospel". He spoke at more funerals, he educated people, possibly educated children in the winters and according to several histories was very beloved by local Warren pioneer residents. This does not take away from the fact that the Warren City council acting without the above knowledge mistakenly voted that it was probably that it was named after a hero of Bunker Hill Joseph Warren who never set foot in our area and was not even known to our pioneers who lived here. Joseph Warren had died 64 years earlier. Joseph Warren was born in Roxbury, Mass. 11 June, 1741; died in Charlestown, Mass., 17 June, 1775 in the battle of The Battle of Bunker Hill

in the United States Revolutionary War for Independence. On 18 April, observing the movements of the British troops, Dr. Warren dispatched William Dawes, and Paul Revere to sound the alarm to the American people. He was chosen as president Provincial congress, and thus became chief executive officer of Massachusetts under this provisional government. On 14 June he was chosen second major-general of tile Massachusetts forces. On the 16th he presided over the Provincial congress. The next day upon hearing that the British troops had landed at Charlestown, he rode over to Bunker Hill. As he was rallying the militia, he was struck in the head by a musket-ball and instantly killed. But our local Abel was not only a war hero but also actually lived just north of Warren. He settled here years before our settlers and helped them with local survival knowledge and cabin raisings, education for their children, community

meetings, Performed more weddings and Officiated at more funerals than anyone else, endearing himself as a local brother, helper and hero to our Warren pioneers. (Much of this is stated in old histories.) In 1838 the five sections of our township that had been taken away were restored and Hickory Township was renamed Aba Township. Eleven months later Aba was allowed to adopt the name of Warren Township. It is most likely that the citizens wanted to honor Abel Warren by naming the township after him. First by calling it Aba (Many of the pioneers spoke different languages and Aba was a nick name and mispronouncement of Abel) then later by calling it Warren. Both of these Warrens were war heroes and had honorable lives and both deserve to be remembered. But which one was actually the one they named the Township after is not important. Harold Stilwell favored Able. I have copies of newspaper articles to that effect.

We know that the pioneers admired their local brother Abel Warren. We are reasonably sure that they did not even know about Joseph Warren. So let's honor both of them. There is room to do this. So let the Warren name honor two great men both named Warren. And let it honor our great pioneer family. It is the right thing to do and it is what the pioneers themselves would have wanted.

The following was excerpted from Leeson's History of Macomb County, Michigan, pp.852ff. "The township of Warren was erected under the name of Hickory March 11, 1837. Under an act approved April 2, 1838, all that portion of Macomb known as Sections 12, 13, 24, 25 and 36 in Township 1 north, of Range 12 east, was set off from the town of Orange and annexed to the town of Hickory. Under the same act, the name of the township of Hickory was changed to that of Aba. It retained this

name until March 25, 1838, when it received its present title -- Warren. The first town meeting was held at the house of Louis Groesbeck, April 3, 1837, with Avery Dennison, Moderator; Samuel Gibbs, Clerk; Louis Beaufait, Alonzo Haight and Jenison F. Glazier, Inspectors of Election. Samuel Gibbs was elected Supervisor; Alonzo Haight, Clerk; Louis L. Beaufait, Collector; Harris Corey, Loring Hawley, L. L. Beaufait, Assessors; Peter Gillett, John H. Barton, Loring Hawley, Commissioners of Highways; Northrup Jones and Louis Groesbeck, Overseers of the Poor; James N. Bruce, with Beaufait and Corey, were elected Constables. Avery Dennison, Sam Gibbs, Lyman E. Rhodes, Commissioners of Schools.“. One could say that The “**Township**” was named after Abel Warren and that the City of Warren by proclamation of City Council picked a name off of a list of revolutionary heroes and picked one who was never in Warren

or known to its residents.. Joseph Warren name from list picked for the "**City of Warren**."

ARNOLD PFC. JAMES L. 21 KILLED IN IRAQ WAR 15-Mar-2007

Arnold Sheryl CLHS 1971

Arnold Wesley E Center Line High School 1962

Arnold, Roy Gordon, Motor Machinist's Mate 2c, USN. was one of 405,000 Americans killed in World War II defending our freedom and securing liberty and justice for all. Both Hitler and the Japs had plans to take over America. It could happen again because foreigners are planning now to take over America.

Arnold, Wesley Edward Professor AA BA MA plus several Doctoral dissertation researches awarded honary Doctortorate tilte.... U.S. Army Veteran, humanitarian, historical researcher who researched a multiple volume history of the Warren and Center Line Area and many other books.

He was a college professor Twenty Eight Years. He has become a source for Wikipedia. His research is seen in several other author's books including that of the Warren Historical Society, Pathways to Freeways, and Martha Ruth Burczyk's gook on Warren. He did some Doctoral work on languages and researched over 236 books. He was a US Army veteran who usually wore a U.S. Army Veteran cap with a US Flag on it and a patch that stated "Remember 9-11." He stated that he wore it to remind people that many Americans died securing their freedom and that he was not a hero even though he got shot at and almost lost his life in the service a few times, but merely did his job as a soldier in which he took an oath to support the U.S. Constitution. He was a Firemen with Center Line Fire Department late 1960s-early 70s, a Scouter, American Red Cross volunteer, Social Worker, First Aid Instructor, and Disaster Worker. He was

a college professor but taught classes for over 50 years in many places. He has even done some world teaching at Wiki University (officially Wikiversity.) He was given a plaque and distinguished service recognition for teaching (twenty years) at Macomb Community College in Warren Michigan. He helped students succeed also researched and published a book on Scholarships listing over 5,000. As a concerned citizen he raised awareness of issues of importance to citizens. Also has probably had greatest influence on helping to improve things for all from his website wiseusful.info now bestideas.fyi He was a tireless advocate of unlimited responsible free speech, the US Constitution and the Universal Declaration of Human Rights. He passed the test and received a General Radio Station License. This is the next to highest rank of official license. As you can see by this document he had the courage to speak up against

those who are against our freedom and who threaten it. He was personally threatened more than once by terrorists and increased his efforts to educate people about the threat. (Unlike many who are cowards who will not stand up against them for human rights.) He supported civilian radio communication. These skilled radio operators can and do provide emergency communications in emergencies and when the power is down. They promote friendship and brotherhood around the world. Wes engineered and installed on his own his own solar power which provided free power daily and during power outs. He stated that it was great to be independent of the power grid and never have to worry about having lights, or electricity to charge fones (modern spelling) or run computers and TV etc. He created an Historical exhibition of old pictures and displayed them at exhibitions and at the Hometown Heroes Coffee restaurant. He compiled local

genealogy and stories of local citizens to preserve their history for their ggggrandchildren. He indexed six cemeteries. He sought to improve things for all and started the “Improving Things For All Think Tank” to gather better workable ideas to create a better future for our grandchildren. He held discussions on how to improve things for a better future. He promoted the Venus project of Jacque Fresco. He published positive memes on Facebook. He stood up against a local terrorist cell at the risk of his life. He helped many students, homeless and others. He had done more research into Warren history than anyone else. He gave away his printed history books for free over many years and also published most of his books free on his websites warrenhistory.fyi and centerlinehistory.fyi from which people could see and print any page, book or any or all of thousands of

pictures themselves. His own gravestone is at Forest Lawn Cemetery but he has asked that his ashes be sprinkled at Warren Union Cemetery where he did so much research. He stated that this would give Warren Union Cemetery a span of soldiers from 1850 to the 2026s. He felt we should honor all those who served our country and who died on attacks on our country and despised the stealing of these memorials. Was a caretaker for Warren Union Cemetery. Was a caretaker at St Clement Cemetery that he published 16 books about. Longest serving member of Warren Historical Commission when he was removed for stating he wanted to "Shoot a headshot of the President with a 36 high magnification Telefoto lens from a distance because we can't get close." Councilman Lafferty acted in haste demanding historian Arnold resign, without bothering to check out that Anold was also a professional photographer who did photo

shoots and took headshots from a distance with a telephoto lens.. Historian Arnold has done more research on Warren history and interviewed more oldtimers andd descendents of pioneers than any other person. He compiled30,000 pages of Warren historical documentation and collected over 26,000 pictures most of which he had placed for free at warrenhistory.fyi and warrenhisory.com Removing him from the Histoeical Commission was a serious mistake because Historian Wes Arnold know more about the history of Warren than any other living person. He also published over 200 books on amazon.com ebooks, paper backs and hardbound. He felt his best and most needed book was "**Secrets You Need to Know and 1004 Valuable Ideas for Happiness Success and to Get Valuable Things Free"** His wife noted that when possible in his house he would capture an insect in a bottle and let it outside, rather than crush it. (not mosquitoes) He

was a believer in Life as being rare in the Universe and had what Albert Schweitzer called “Reverence for Life. “He was an admirer of Jesus, Confucius, Socrates, Carl Sagan, Jacque Fresco and many other humanitarian thinkers.
